

Physical oceanography Prezi

Task: Create a Prezi with a partner on your topic.

Must include:

How it works/how it's made, SPECIFICS.

Location, where can you find it?

Names of Recorded major locations or events.

Impacts to human life, OR do humans have an impact on the nat. phenomenon.

Use mainly pictures

Include at least 3 short (under 3 min) videos about your topic

You must Cite, APA format, where you collected information from and make sure there is a works cited "bubble" in your prezi.

Example topics:

1. Major Ocean Currents

Gulf Stream, Fastest currents, Deep ocean currents, maelstroms

2. Weather Related Phenomenon

Hurricanes, Tsunami, El Nino, brinicles, Piteraqs, <http://www.whoi.edu/oceanus/feature/piteraqs> cyclones, typhoons.

3. Tides

Low and High, Influence of sun and moon, tidal bores, equatorially tides

4. Geophysical ocean

Deep sea volcanoes, landslides, earthquakes, Trenches

5. Chemical ocean

undersea rivers, lakes, super saline oceans

6. Types of waves

Rogue waves, normal waves
