

Seagrasses

Use the websites below to find the answers to these questions and three questions that we came up with in class

Objectives/questions:

What are seagrasses

Where are they found?

What are their role in marine habitats

What is their role in the food chain?

How do they grow and reproduce

Identify the anatomy of a seagrass

What is the importance of seagrasses

What are the human impacts on Seagrasses

What animals live in seagrass meadows and why do they live there?

Can seagrasses reduce the size of waves?

How fast do seagrasses grow and how much sunlight do they need?
